Equal to about 25 P cent. The business on this road as well as on the whole Central line this month, is exceedingly great, especially in freight, taxing the entire capacity of their machinery

The Hanover Pank has declared a dividend of 4 \$\P\$ cent. for the past six months, payable on the 3.1 January next. This is one of the best managed and most successful of the new Banks.

The Butchers' and Drovers' Bank have declared a dividend of 20 P cent. psyable on the 31st inst, which absorbs the entire profits, as the Bank's Charter then expires. The institution will be renewed at the same time under the general Banking Law, to commence business on the 3d January; with a capital increased from \$500,000 to \$500,000.

A dispatch from Philadelphia states that a que warrente has been issued by the Supreme Court, aummoning the Officers of the West Branch Bank at Williamsport, to appear before the Supreme Court at Philadelphia on the 10th of January, to show cause by what authority they exercise the privileges and franchice of a banking institution.

The Cocheco (Mass.) Manufacturing Company has declared a dividend of \$26 P share. The Franklin Bank of Baltimore has declared a semi-annual dividend of 3 P cent., free of State and city taxes, payable on the 1st of January. The Directors of the Bank have determined to double its present capital, giving the stockholders the option to take the shares at eir par value, at any time during the coming month.

January. The Boston and Providence Rollroad has declared a dividend of 21 4" cent., for the five months ending Dec. 1. The net earnings of the road for the five months ending Nov. 30, are stated at \$95,428 84, on a capital of \$3,160,000.

The Legislature of Ohio has authorized Railroad Bonds and Scrip to be negotiated at a discount, without impairing their validity, when, in the opinion of the Directors, it may be deemed expedient.

The gross receipts of the Winchester and Potemac Railroad, for the year ending Oct. 1, were \$89,766 22, being \$8,709 85 less than that of the year

We learn from The Cumberland Journal that the President and Directors of the Chesapeake and Ohio Canal had a meeting at Washington on the 9th inst, and determined to reduce the rate of tolls on the canal from 46 cents to 37 cents per tun from Cumber-land to Georgetown, as soon as one hundred bouts are added to the present number engaged in the trade. is understood that the Board will meet at an early day to sanction the reduction.

A Company was organized at Keeseville on the 16th inst. to build a railroad to connect the existing Montreal and New-York Railroad, at Plattsburgh, with the Washington and Saratoga Railroad at Whitehall, passing through the country on the west shore of Lake Chemplain. A Board of Directors was chosen, among whom are Gouverneur Morris and George L. Schuyler, of this City.

A Convention was held at Massillon, Ohio, on the 15th inst. in favor of constructing a railroad, at the carlicat practicable moment, to connect the cities of Columbus and Cincinnati with the New-York and Eric Railroad. A committee was appointed to organize, as rearly as possible, a suitable corps of engineers, to survey the routes between Columbus and the crossing point on the Ohio and Pennsylvania State line, and such other routes as the committee may deem necessary, said surveys to provide for a six foot guage. A committee was also appointed to visit New-York and consuit with the Directors of the New York and Eric Railroad relative to the proposed connection. The Baltimore and Onio Railroad Company

have determined to construct one hundred miles of dcuble track immediately, eixty between Baltimore and Cumberland, and forty between Cumberland and Wheeling. One hundred theusand dollars of additional locomotives and cars have been ordered for the proper egulpment of the extension. To cover the expense of improvements, there will be a new issue of two and a half million dollars in bonds of the Company.

The Savannah Republican published the report in full of the Directors of the Central Railroad and Banking Company, of Georgia. The report shows a gross income of \$945,508 28, for year ending 30th November, and a net one of \$507,000, which exceeds the estimate made in the report of the previous year by

stances are encouraging to importers, and our imports will be very large in the coming season. The rise in prices shroad is not sufficient to check the orders. Consumption is rood, at a much higher level of prices. The country is rich. Money abounds all over, thanks to our golden State; and Goods cver, thanks to our golden State; and Goods will be bought while mency holds out, and that is likely to be for a time indefinite.—
Unbleached Shirtings and Sheetings are firm at the recent advance, with a fair business and moderate supply. Heavy Sheetings, first qualities, 74; medium and light qualities are searce and wanted. Bleached sine goods are quick at 123. Low qualities are scarce at an advance. Drills are scarce. All the Browns arriving for some time to come are engaged—8c., Browns; 8t. for some time to come are engaged—Sc., Browns; St. Eleached; 94, Blues. Osnaburghs are firm but not active. Denims are in poor supply Prices are working upward. The range is 9221, with little at the lower four and some held above the higher. Stripes and Ticks are scarce and firm at the advance already noted. Canton Flannels are steady, but with a less animated demand. Printing Cloths are in very limited stock. Prices have again advanced, though the market is irregular. The advance since last month is 1, which is greater than in any other Cotton goods. Prints are also steadily advancing, so that it will be unprofitable to manufacture any but the better qualities. Low qualities have been generally neglected. Consumers can afford to pay better prices, and any diminution of the demand for good qualities is not likely to happen. De Laines are yet inactive, but spring supplies are arriving.-Cloths are quiet, the stock in first hands being ex-hausted and higher prices being asked by specu-lative holders. Many jobbers are reselling their purchases at a profit to the general trade.— Carrimeres are inactive, but spring supplies are coming forward. Blacks sell to a fair extent, prices are steady. Black Doeskins are scarce and wanted. Satinets are dull but firm, with some advance on the lower qualities. Sheep's Grays have been sold down to a very low stock at an advance. Tweeds and Jeans are more active at buoyent rates. Linseys are steady at 18 2/19c. Flannels are higher with little stock on hand. The foreign market is very lively for this usually dull season. Poreign Cloths are very buoyant in price. German and Yorkshire Cloths, in the present scarcity of Domestic, and high price of domestic Wool, will command this market. Clothiers are buying freely and at good prices. British goods are selling to a greater extent at full prices. French goods, especially Silks, are in fair request at steadily advancing prices. Many dealers are early in the market, enticipating a rise when the full demand comes round. The arrivals

DIVIDENDS ON ILLINOIS BONDS.

To the Editor of The N. Y. Tribune: As the attention of the holders of Illinois As the attention of the noncers or announcers of sour paper, and as your correspondent has implied that knowing ones keep things "quiet," I take leave to communicate the facts, as they now exist, in regard to the data of Illipois.

are large and the supplies coming will be very con-

siderable, as both steamers and packets will, as ad-

vised, bring full cargoes. The rise in prices has not

been a drawback on orders, and the demand is held to

be quite equal to a large advance. Such is the general

or your paper, and as your correspondent has impact that knowing ones keep things "quiet," I take leave to communicate the facts, as they now exist, in regard to the debt of Illinois.

From efficial documents and inquiries at the capital of Illinois, I find the interest bearing debt of Illinois may now be set down in round numbers at eleven millions of dollars principal. This is exclusive of the Canal preferred loan, which is now reduced to about one-third its original amount, and which it is supposed will be entirely paid by the revenues of the Illinois and Michigan Canal and the Canal lands during 1853. Of this eleven millions of interest-tearing Bonds, about six millions are Internal Improvement and five millions Canal Bonds; about one-half of the latter are registered Canal Bonds.

Now what is Illinois doing toward paying these debts? Since 1847 a tax of Illinois doward paying these debts? Since 1847 a tax of Illinois doward paying these debts? Ince 1847 a tax of Illinois may not this city. This is applied equally on the whole debt of eleven millions. In 1850 the Bond-holders received from this interest tax 1 17-100 per cent.; in 1851, 1 30-100, and in 1852 1½ per cent. on each dollar is interest tower the property, which shall be paid pro-rata at 8pringfield, on the 1st of January, to such Bondholders (excluding Canal Bonds) as may present their Bonds, and who are willing to accept a payment of a part of the principal, while the arrears of interest remains unpaid. On the 1st of January, 1851, there was paid from this two mill tax (first year's operation) \$165,000, and on the 1st of January, 1851, there was paid from this two mill tax (first year's operation) \$165,000, and on the 1st of January, 1851, there was paid from this two mill tax (first year's operation) \$165,000, and on the 1st of January, 1851, there was paid from this two mill tax (first year's operation) \$165,000, and on the 1st of January, 1851, there was paid from this two mill tax (first year's operation) \$165,000, and on the 1st of January,

tent. on arrests of interest, and reduce the principal of her debt in the sum of \$400,000.

Further—Illinois has transfered her canal and canal lands to trustees in payment exclusively of her Canal Bonds. The canal and lands are estimated as worth \$4,000,000, and now yield annually 6 \$\psi\$ cent, or more,

\$4,000,000, and now yield annually 6 \$\psi\$ cent, or more, on that amount.

Again—Illinois has bargained some two million acress of land to the Illinois Central Railroad Co., for the annual payment of seven per cent. on the receipts of that read. This percentage is to apply also toward the debt of Illinois, and will yield, it is supposed, \$140,000 per annum, thus paying a handsome sum to bondholders on the arrears of interest.

Besides this, bankrupt Illinois has \$750,000 worth of Internal Improvement lands—the three per cent, fund

the arrears of interest.

Besides this, bankrupt Illinois has \$750,000 worth of Internal Improvement lands—the three per cent. fund on all Government land sales within her borders—the swamp lands, and sund vods and ends of property to pay her debts.

But all the foregoing are of less consequence to her creditors than the fact that her citizens are determined to pay. They have at the last election refused to sanction a law for the investment of the two-mill tax in the purchase of bonds at their market value.

Having resided fourteen years in Illinois, the writer may be supposed to feel a lively interest in her progress. He ventures the prediction that no State of the Confederacy, ever has increased in wealth and population as Illinois is destined to increase of population in Illinois, from 1840 to 1850, was 81 per cent.; outnumbering the increase of Indiana by 60,000, and coming within 69,000 of that of Ohio during the same period. But from 1850 to 1855, the relative increase of population is to be far greater.

It in any point these statements are incorrect, I shall

far greater.

B in any point these statements are incorrect, I shall be pleased to learn the facts through any of your correspondents.
